## THE CONCEPTS OF *WEALTH* IN OLD BULGARIAN LANGUAGE

(Summary)

The article present the concept *Wealth* in Old Bulgarian language. The forthcoming research adopts as a leading idea Maslova's understanding of the concept as a mental, nation-specific formation whose content plan is the whole totality of knowledge concerning a specific object, while its expression plan is a set of linguistic tools (lexical, phraseological, paremiological, etc.) (Maslova 2006). The **object** of the research is the lexemes verbalising the concept of Wealth in Old Bulgarian language. The linguistic **material** is derived from dictionaries (Речник на старобългарския език т. I. и т. II., *Български етимологичен речник т. I–VI*, *Этимологический словарь русского языка т. I–IV*). The **purpose** of this work is to deduce the signs forming the structure of the concept *Wealth* in the culture of medieval Bulgarian.

*Keywords:* concept, *Wealth*, Old Bulgarian language
